1. The following is an examiner's statement of reasons for allowance: The reason for allowance of claims 19 and 34 is the provision in a fence of a sheet pressing element which is biased by a biasing element and includes structure to switch between a condition in which the biasing force is exerted on the sheet pressing element and a condition in which the biasing force is not exerted on the sheet pressing element. The prior art while teaching biasing a sheet pressing element does not teach or suggest providing means to change the condition of application of the biasing force.
